

Lecture 1

The Banks

The **Bank** is a financial institution which accept the deposits from people and companies and giving loans for who wants and offering wide financial services.

المصرف هو المؤسسة المالية التي تقبل الودائع من الأفراد و الشركات و تقدم القروض للراغبين و تعرض خدمات مالية متنوعة.

The **Deposit** is money amounts that people put it in their banking accounts.

The **Banking loans** is money amounts that bank lend it for who want it with an interest rate.

القروض المصرفية هي مبالغ النقود التي يقرضها المصرف لمن يرغب بها بنسبة فائدة

Banking Accounting types:

banking accounts divided into two types:

1 -**Saving Account**: Its banking account enable the costumers to save their money in the bank and the bank pay an interest on this account.

1 - حساب التوفير: هو حساب مصرفي يمكن الزبائن من ادخار اموالهم في المصرف الذي يدفع لهم نسبة فائدة عليها.

2 – **Current Account**: its banking account enable the people to put their money in bank and withdrawn from it any time by using checks for doing their daily transactions.
